***With your donation
a ranger becomes a leaf
that brings the tree to life.***

***Many leaves help us with our
conservation work worldwide.***

RANGERS ARE THE VOICE OF NATURE:

Rangers protect nature ...

***... guide visitors through natural areas and show
their special features***

... hold events and lectures

... convey complex topics like climate change or biodiversity

... ensure compliance with green laws

COLLABORATION, KNOWLEDGE TRANSFER AND CROSS-BORDER COOPERATION ...

... play an important role in successfully protecting nature reserves.

We are tackling worldwide issues, like illegal hunting, logging and raw material extraction.

Nature reserves provide numerous ecosystem services. It is our responsibility to maintain and conserve these for future generations.

Worldwide knowledge exchange takes place every two years at a congress. Enable one ranger with limited financial resources to participate in an international training or meeting such as these congresses.

RANGER CONGRESS TASKS:

Bringing rangers together at an international level and offering workshops based on the enormous knowledge and experience of rangers from different countries on topics like ranger safety, implementation of protected area regulations, integration of indigenous peoples and their highly valuable knowledge about nature, combating environmental crimes, recommendations for nature conservation forums, etc.

WHAT YOU CAN EXPECT FOR YOUR DONATION:

- *Disclosure of name and origin of the supported ranger*
- *Information on how your contribution has helped to make a change*
- *Being part of the overarching goal for 2030: at least 30 percent of our planet should be protected*
- *Showcasing your name and logo on our homepage*
- *A Ranger Leaf certificate for your printed work, your homepage or social media*
